LEAGUE EXHIBIT

Over One Hundred Paintings by Local Artists.

GREAT IMPROVEMENTS SHOWN

Institution Which Needs Encouragement.

Some Beautiful Works of Art by Local Artist—Fine China Decorations.

For a strictly local institution the exhibitions by the members of the Kilauea Art League have too little support. If art is to be encouraged in Ho-

lulu it must be by more liberal patronage of admirers and buyers of the works of the local artists.

In the present exhibition there are more than a hundred pieces which in almost any city would command the attention of five persons where in Honolulu but one goes to see them. It is possible that the fault lies in the location of the exhibition rooms, for people in Honolulu have a horror of climbing stairs, and more particularly those which approach in appearance the "long and narrow."

In this season's exhibition there are a number of paintings which deserve special mention for the excellence of handling. The artists who have contributed since the opening of the League show a marked improvement, whether from a knowledge that their works is to be viewed and criticized by others than their intimate friends, or from closer attention to methods is not known. Art, like other things, is changing, and what would be bought today for a high figure would have been relegated to the garret 10 years ago, simply from the fact that the real artist displays a greater boldness in the use of both brush and color. And the public is being educated to a higher standard.

In this respect, perhaps, there is still room for improvement among the local talent, but there is a happy consolation that not one among those who

exhibit can be charged with belonging to the impressionist school.

In some of the paintings rather too much attention has been paid to detail, a fault to be found in all young artists and which after rubbing up against older heads is often lost. In Mr. Hitchcock's later work he seems to be breaking away from the staid idea which formerly possessed him that unless a leaf actually grew on the tree he was painting it should not go on the canvas, and if it was on the tree it must be painted in. Take his No. 48, Makapu from Maunawili, and the change in his method is particularly noticeable and pleasing.

No. 58, in the present exhibition, is by Jean M. Foster, and commands attention first, because it is the only one of the character in the room and because of its faithful execution. It is catalogued as "Old Pitero," and represents a gray-bearded man. The pose of the head and the colorings show considerable talent in the artist, and the position given it by the Hanging Committee shows the appreciation of it by that body.

Another excellent piece by Mr. Hitch-

cock is No. 54, which shows the ocean along the Puna Coast, the surf just breaking. It is a picture which the artist considers among the best of his more recent work, and the public agrees with him. He carries throughout a beautifully harmonious tone, and the effect of the spray dashing is quite realistic.

A pen and ink suggestion for a bachelor's home is inviting enough to the average man about town to remain single. In this design Mr. Dickey, the architect, has embodied all the comforts of a home, sacrificing nothing to the artist's fancy.

The exhibits by Mrs. Augusta H. Graham are novelties from the fact that but few Honolulu ladies take to such hard work as wood carving. Mrs. Graham shows this year what can be done by a woman with a jack knife and a piece of wood, and she shows, also, that with talent and some indulgence, useful, and at the same time, ornamental articles can be made for the home. But not every one has the ability of Mrs. Graham.

The excellent paintings of Mrs. Helen Kelley are almost too well known to require extended mention here. In San Francisco, where she resided for a long time, her flower pieces were always in demand by the art dealers at good figures.

There are some fine pieces in china painting by Miss F. J. Nolte, E. M. Willis, Mrs. Dillingham, Miss French and Miss Bessie Along. Miss Nolte was a student in this branch of art in San Francisco, and has done commendable work. Not long ago one piece

by this young lady so closely resembled the Royal Worcester ware that it was difficult to distinguish one from the other.

A portiere, constructed by Mr. and Mrs. C. W. Day, which has been described at length in this paper, still continues to attract a great deal of attention. The medallions by the sculptor, Allen Hutchinson, are in his usual finished style, and just why this gentleman selects Honolulu, where there is so little demand for his most excellent work, for his home is hard to understand. Mr. Hutchinson's place is in one of the large cities, where the result of his labors would be appreciated.

The other artists exhibiting, besides those mentioned, are Mrs. Tucker, Miss French, Mrs. Jones, Miss Parke, Miss Beckwith, Mrs. Jones, Mr. P. H. Dodge, Mrs. Bond, Mrs. Dakota and Mrs. W. C. Weedon.

THANKSGIVING BOAT RACE.
Stranger Crew Wins Easily From the Alice M.

Yesterday being a holiday, the Myrtle Boat Club boys got together and arranged for a scrub race between two crews, from the ranks of its own membership, to row from the boat house to the spar buoy and return in the

he gave another of those popular informal dances. Besides the guests of the hotel, there were present a goodly number of the society people of Honolulu, who found much pleasure in attending. The house, spacious verandas and lanai were decorated with palms and ferns. The hallway leading from the lanai to the office was perhaps the most attractive spot in point of decorations. The monotony of the walls was lost in the drooping fronds of the large fishtail ferns. After the Thanksgiving dinner, during which the Kawaihau Sextette Club furnished music, the dance begun on the lanai and in the parlor and was continued until midnight. Among those present were Mr. and Mrs. G. Paris, Mrs. Phoebe Makee, Mrs. Elizabeth Parker, Mrs. Draper, Mrs. J. Winter, Misses Lansing Rowan, Alice Pixley, Hope Ross, Helen Parker, Ella Stansbury, Helen Wilder, Kinney, Wall, Roth, Vida, Johnson, Messrs. Samuel Parker, Geo. Potter, C. J. Falk, T. Daniel Frawley, Geo. W. Leslie, Walter Dillingham, C. H. W. Norton, Robt. Shingle, C. S. Sanworth, P. J. Semmes, C. A. Brown, H. C. Fassett, Yates Sterling, Jr., Mr. Whitney and many others.

THAT FUNDING BILL.
Belief That the Measure Will be Called Up at This Session.

WASHINGTON, D. C., Nov. 11th.—It is said to be the intention of C. P. Huntington to try to get the Pacific Railway Funding Bill through at the coming session of Congress. Mr. Huntington's plans are, of course, not known, but various matters combine to give the impression that he will seek to put the bill on its passage at the December session. The present House has been thought favorable to refunding for some reason. The Senate is thought to stand the same way. The composition of the next House is uncertain.

Should tariff legislation engross the coming session there might not be a day for the Funding Bill. It might have to go over to the next Congress, but should there be no legislation on the Dingley Bill, or a kindred measure, the House would not be so occupied that it could not take up the bill.

SULTAN OFFERS REFORM.
Makes Official Summary of What He Will Do.

CONSTANTINOPLE, Nov. 11th.—While counseling American missionaries to remain at their posts in Anatolia, Minister Terrell has induced the removal of the children of missionaries to places of safety.

The official summary of reforms to be put into execution by the Turkish Government in accordance with its promise to the Powers has been published, and it is announced that the provincial authorities have received instructions to execute them immediately.

Bishop Ireland Will Stay.
ROME, ITALY, Nov. 11th.—The statement circulated in the United States that the Pope has decided to remove Archbishop Ireland from the Diocese of St. Paul is untrue. But it is stated by those qualified to know that Archbishop Ireland has lost the greater part of the consideration in which he was held at the Vatican, and that the course he pursued in the election in the United States has increased this disfavor.

Legislative Contests in Kentucky.
FRANKFORT, KY., Nov. 11th.—Notices of contest have been filed in the cases of all Republicans elected to fill vacancies in the Legislature. This is understood to have been done in the interest of Blackburn.

HARRISON FOR ARIZONA.
ST. LOUIS, MO., Nov. 11th.—W. H. H. Miller, ex-Attorney General, was in St. Louis today. He was asked if he thought ex-President Harrison would accept a portfolio in President-elect

FOREIGN BUDGET

Arbitrator Appointed on the Boundary Question.

KING OF SWEDEN IS NAMED

Huntington Will Again Try Funding Bill.

Sultan Offers Reform—Legislative Contests—Bishop Ireland to Remain.

WASHINGTON, D. C., Nov. 10th.—The King of Sweden and Norway, Oscar II, has been chosen by the treaty between the United States and Great Britain as the fifth official arbitrator of the Venezuelan boundary question. The other arbitrators, four in number, are to be designated, two by the Lord Chief Justice of England, and two by the Chief Justice of the United States. This is the final and most important feature of the treaty for the complete adjustment of the long-pending Venezuelan controversy.

The treaty was concluded in Washington last night at the British Embassy. Sir Julian Pauncefote representing Her Britannic Majesty and Secretary Olney the United States. Since the return of Sir Julian Pauncefote from London, three weeks ago, negotiations toward a final settlement have been proceeding. Most of the meetings were of such an important character that they were held either at Mr. Olney's residence or at the British Embassy, the two houses being but two blocks separated. It happened that the concluding meeting was at the Embassy yesterday, and special interest was given to it from the fact that Lord Salisbury, the British Premier, was to make a speech at Guildhall, London, in the evening. It is the annual event at which the Premier usually takes occasion to review the status of the most important international question. For this reason it was desired, if possible, to acquaint Lord Salisbury of the final and satisfactory adjustment of the Venezuelan question, in order that he might make such announcement as he thought fit concerning it.

THAT FUNDING BILL.
Belief That the Measure Will be Called Up at This Session.

WASHINGTON, D. C., Nov. 11th.—It is said to be the intention of C. P. Huntington to try to get the Pacific Railway Funding Bill through at the coming session of Congress. Mr. Huntington's plans are, of course, not known, but various matters combine to give the impression that he will seek to put the bill on its passage at the December session. The present House has been thought favorable to refunding for some reason. The Senate is thought to stand the same way. The composition of the next House is uncertain.

Should tariff legislation engross the coming session there might not be a day for the Funding Bill. It might have to go over to the next Congress, but should there be no legislation on the Dingley Bill, or a kindred measure, the House would not be so occupied that it could not take up the bill.

SULTAN OFFERS REFORM.
Makes Official Summary of What He Will Do.

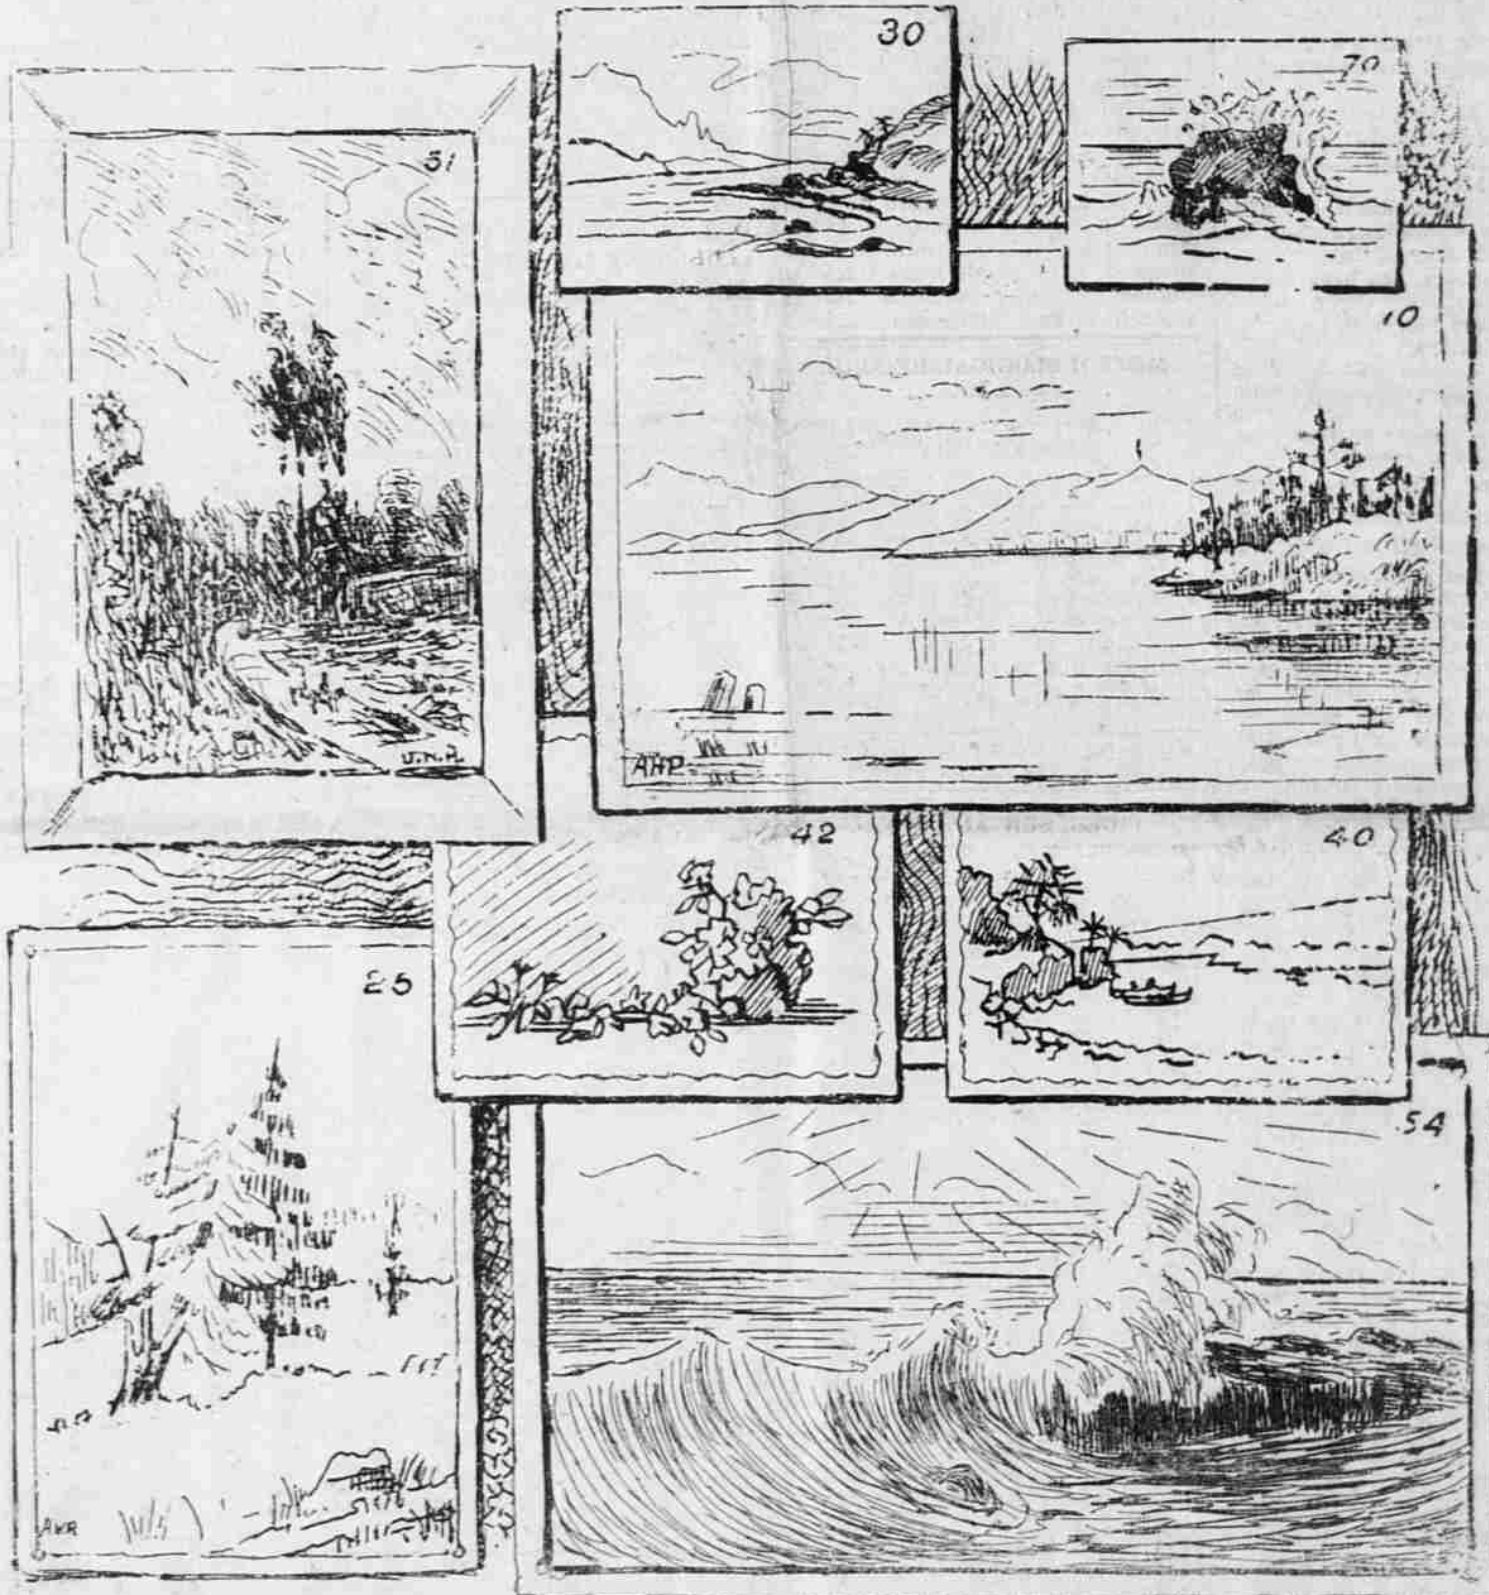

CONSTANTINOPLE, Nov. 11th.—While counseling American missionaries to remain at their posts in Anatolia, Minister Terrell has induced the removal of the children of missionaries to places of safety.

The official summary of reforms to be put into execution by the Turkish Government in accordance with its promise to the Powers has been published, and it is announced that the provincial authorities have received instructions to execute them immediately.

Bishop Ireland Will Stay.
ROME, ITALY, Nov. 11th.—The statement circulated in the United States that the Pope has decided to remove Archbishop Ireland from the Diocese of St. Paul is untrue. HARRISON FOR ARIZONA.
ST. LOUIS, MO., Nov. 11th.—W. H. H. Miller, ex-Attorney General, was in St. Louis today. He was asked if he thought ex-President Harrison would accept a portfolio in President-elect

SOME OF THE PICTURES AT THE ART LEAGUE EXHIBITION.

Stranger and Alice M. Following were the crews:

Stranger—O. Sorenson (stroke), W. Lyle, L. Scott, Geo. Martin, Geo. Clarke, Logan and W. Love (coxswain).

Alice M.—H. Giles (stroke), Tom King, Sam Lyle, A. Petrie, W. Thrum, Ed Paris and Chas. Crane (coxswain).

The start was made at about 11 a. m., and the two crews set out for the spar buoy. While rounding this two of the seats of the Alice M. gave way, and the steering gear followed suit. By the time things could be fixed again the Stranger crew were far in the lead and finished about 10 lengths ahead.

H. Wilder officiated as starter and Frank McIntyre as judge.

The crew of the Stranger are now awaiting a turkey dinner which it seems they think they have won from the other side. They have some time still to wait.

A Robbery of Poi.
Maguire's express office was burglarized on Thanksgiving night, but the police authorities have not been notified of the matter. Some persons or persons broke in and after hunting about and finding nothing but tags, they came across a large bowl of poi, some salmon and a bag of dried fish. It may be a clue to the police authorities if they find out that the three articles disappeared and that the housebreakers did the same.

Hotel Dance.
Pete Lucas, manager of the Hawaiian Hotel, surpassed all his previous efforts at entertaining the guests of the hotel when upon Wednesday night

CORRESPONDENT AND AUTHOR
Joseph A. Altscheler, who represented the World Here in 1893.

Those acquainted with Joseph A. Altscheler, who was in Honolulu as the representative of the New York World in 1893, will be interested to learn that he has turned his attention to story writing. By a recent mail United States Consul General Mills received two volumes, "The Rainbow of Gold" and its sequel, "The Hidden Mine," published by Mr. Altscheler by J. Selwin Tall & Sons of New York City. The story is of the experiences of two boys who crossed the American continent during the gold fever and afterward made their fortunes in California. There are plenty of hairbreadth escapes from Indians on the plains, and exciting affairs with the tough crowd that frequented the gold fields in the early days. The theme is not unlike the usual Indian stories, except that the author has fought shy of bringing in a heroine with beautiful face, wavy locks, etc., etc. The story is told in an easy going, readable newspaper style, with no words wasted on theorizing and unusual pen pictures.

Mr. Altscheler, who is an old time friend of Mr. Mills, is a Louisville, Ky., boy who started in with newspaper work on the Louisville Courier-Journal. He then went on the New York World, where he was assigned to "do" the Chicago Exposition.

Hotel Dance.
Pete Lucas, manager of the Hawaiian Hotel, surpassed all his previous efforts at entertaining the guests of the hotel when upon Wednesday night

McKinley's Cabinet. He replied that he knew Mr. Harrison would not accept a portfolio under any circumstances. He said he knew this from personal conversations he had with the ex-President and from other expressions he had heard from Mr. Harrison.

WILL PUSH ITS CLAIM.

Oon Pan's Government Wants Damages for That Raid.

LONDON, Nov. 11.—A special dispatch from Johannesburg says that the Government of the Transvaal Republic has decided to put in a claim for £1,000,000 indemnity against the British Chartered South African Company, as one of the results of the raid of Dr. Jameson and his followers into the territory of the Transvaal.

At the annual meeting today of the Consolidated Gold Fields Company, John Hays Hammond, the American mining engineer, who was in charge of the works at the time of the disturbances at Johannesburg, and who was condemned to death, and subsequently reprieved and heavily fined, as one of the members of the famous Reform Committee, presented an exhaustive report on deep-level mining. It was received with great favor, and Mr. Hammond was voted the thanks of the company. The meeting was largely attended and enthusiastic.

At the close of the meeting Mr. Hammond was interviewed regarding the prospects of South Africa. He said: "The prospects in South Africa were never brighter. The recent depression in prices was caused by a scarcity of money, and everyone was obliged to sell good securities, but the outlook now is good. There has been a large gold output."

"The report that President Krueger will cancel the claims held by the company is untrue. It was only a bear movement."

ADOPTING ENGLISH METHODS.

The Yale Eight Profiting by New Experiments.

NEW HAVEN, CONN., Nov. 11th.—"Bob" Cook, Yale's veteran coach, who is to remain here this week coaching the 'varsity eight, watched with interest the candidates taking their practice in an English-rigged shell manned by English oars. He expressed himself as well pleased with the English-rigged shell, and added: "It is rather a radical move, but I think that the oarsmen are able to get more power from their work by pulling on the zigzag placed benches and with the English oars than with seats arranged in a row with the old oars. We like the change, and I think we will stick to it."

"As to adopting the English stroke, I don't think we will. There are a few changes to be made with the stroke Yale has rowed for several years. We have rather unconsciously adopted some of the things that professional oarsmen have been using, but we shall simply get back to where we were a few years ago."

Mr. Cook said that it was not decided where Yale would row the coming year. No plans whatever had been made by Yale yet for a race next June.

SARONY DEAD.

Photographer and Artist Succumbs to Paralysis.

NEW YORK, Nov. 9th.—Napoleon Sarony, photographer and artist, was found dead in bed by his wife at his home this morning. Mr. Sarony worked most of Sunday in his home studio on a crayon portrait. He spent the evening chatting with his wife and a few friends. He was particularly cheerful, and when he went to bed he said to his wife that he had not felt so well in a long time. When Mrs. Sarony arose this morning she found her husband dead.

The family physician was hastily summoned. In the physician's opinion, the photographer had been dead about two hours. In the physician's death certificate he gave the cause of death as apoplexy. Two years ago Mr. Sarony sustained a slight stroke of paralysis. A year ago he sustained another stroke, and the doctor thinks that during the night Mr. Sarony may have sustained a third stroke, followed by an apoplectic attack.

BIRD ORNAMENTS TABOOED.

The Jersey W. C. T. U. Objects to That sort of Millinery.

BRIDGETON, N. J., Oct. 23d.—The State Convention of the Women's Christian Temperance Union adjourned at noon today after adopting resolutions vigorously protesting against a lot of things, including the use of birds in bonnets and motto buttons. They also protest against the "midway" at the recent Interstate Fair, against the driving of beer wagons through the streets of towns where no licenses are granted; proclaim for equal suffrage; for the repeal of the law relating to the age of consent; against military drills in schools and boys' brigades in churches; the wrong use of the bicycle in Sunday riding and the sale of liquor at the new coast resort at Pleasant Bay.

WEYLER IN THE FIELD.

Situation in Cuba Getting Serious for Spaniards.

HAVANA, Nov. 9.—Captain-General Weyler has taken the field in person Antonio Maceo, in the province of Pinar del Rio. Reliable news received from the front indicates that the Spanish columns are approaching close to the enemy.

General Weyler left Havana on the cruiser Legazpy this morning for Mariel. From Mariel it is understood he will go southward by highway to Artemisa and along the line of the trocha. Strong reinforcements are being embarked to support the Captain-General

in his operations against the insurgents.

The Marquis de Ahumada remains in charge of the Captain-General's office here, with Colonel Ramon Dominguez as chief of staff. The Committee of National Defense has passed a resolution requesting the Government to finish the rebellion by the use of the army and without political interference.

The Spanish authorities in Havana are greatly disturbed because several thousand insurgents from Gomez's army have entered Matanzas province. So serious does Weyler consider the situation that he has withdrawn 6000 troops from Pinar del Rio and dispatches them into Matanzas to stay the advances.

During the siege and subsequent capture of Guayama city by the insurgents the Spaniards lost 260 killed and wounded. Three hundred and seventy Spaniards surrendered to Calixto Garcia, commanding the besieging force. Garcia sent word to General Castellanos that they would be exchanged for Cubans held by the Spaniards.

General Weyler arrived at Mariel at 6 o'clock this morning and left shortly afterwards, going in the direction of Guanajay, on the military line and about half way to Artemisa. Advice from Pinar del Rio announce the surrender of the insurgent leaders Filomeno Cimino, Domingo Parra and Alejandro Rubio and eight of their followers.

TO DOWN SAM.

Plot to Overthrow Haytian Government Discovered.

NEW YORK, Oct. 29th.—The Sun's Kingston correspondence of October 22d says: Private advice received here today from Port-au-Prince, Hayti, report the discovery at Au-Caques of a conspiracy to overthrow the Government. Most of the exiles who recently returned to Hayti are implicated, and so are many of the Government officials.

The plans of the plotters had been carefully concealed, and it was only by the merest chance that the Police Department obtained a clue. The recent outbreaks of incendiarism are attributed to these would-be revolutionists. M. Bonzey, Director of Customs at the port of Au-Caques, has been arrested, and many other minor Government officials have been lodged in prison, suspected of complicity.

PLANS OF CLEVELAND.

He Does Not Intend to Interfere in Cuba at Present.

NEW YORK, Nov. 11th.—The Herald's Washington special says: Important developments in Cuban affairs may be expected at an early date, but not from this end of the line. The Administration thoroughly understands the situation in Cuba as it exists today, and does not regard the time as ripe for any action by this country. Many sensational reports are afloat about immediate intervention by the United States, and extensive military preparations for prospective trouble with Spain. I can state authoritatively that the President regards the military situation in Cuba as far too critical to warrant any action by the United States at this time.

MORE RECORDS SMASHED.

John S. Johnson Clips Half and Third Mile Marks.

NASHVILLE (Tenn.) Oct. 29.—Four records were broken at Cumberland Park today. John S. Johnson, paced by the Bello sextet, covered the half mile in 0:44 3-5, lowering his record of 0:47, made on Wednesday.

Paced by the sextet Johnson rode a third of a mile in 0:27 4-5. The former mark was 0:30 2-5, set by Kiser at Coronado last April.

Phillips, Meyers and Brodis set the triplet mark at 0:48 2-5, while Waller, Meyers Brodis and Staver rode a quad one-third of a mile in 0:31 1-5. These records are all official.

WOMEN GATHER AT ST. LOUIS.

Ready for the National Convention of the W. C. T. U.

ST. LOUIS, MO., Nov. 11th.—Many of the delegates and most of the national officers have arrived to attend the twenty-third annual convention of the National Woman's Christian Temperance Union, which meets in Music Hall Friday morning, and will be in session for six days. Miss Frances E. Willard, the President, who came in last night, met with the executive officers of the national body on business pertaining to the convention. Five hundred accredited delegates and as many more visitors are expected.

WORK ON PANAMA CANAL.

Former Director-General Arrives in Bogota.

BOGOTA, COLOMBIA, Nov. 11th.—M. Mange, formerly Director General of the Panama Canal Company, arrived here Tuesday. I understand he comes to occupy the position of Director of Works in the new canal company. He rendered good service formerly, and is an efficient engineer.

The steamer Castle Eden is shortly expected from Colon with 800 African laborers from Sierra Leone for the canal. Their pay will be 80 cents, Colombian currency, per day.

NEW YORK CITY BONDS.

Over Sixteen Millions Awarded to One Firm.

NEW YORK, Nov. 11th.—Controller Fitch, by the direction of the other members of the Sinking Fund Commission, today awarded the entire issue of \$16,046,590 of city bonds, for which bids were opened Monday, to Vermilye & Co. at \$104.71, a total premium of \$755,794.

REPORT VERIFIED.

Confirmation of the Story of King Oscar's Selection.

WASHINGTON, D. C., Nov. 11th.—The report that King Oscar II, of Sweden and Norway, had been agreed on as the fifth and final arbitrator in the

Venezuelan question and that the four other arbitrators would be named by the judicial authorities of the two countries, two by the Lord Chief Justice of England, and two by the Chief Justice of the United States, has been fully verified from authoritative sources.

Famine Riots in India.

LONDON, Nov. 11th.—A dispatch from Bombay says in 11 districts of Deccan and Concan a million and a quarter people are believed to be on the verge of starvation.

Another Rumor Denied.

MADRID, Nov. 11th.—The Premier, Senor del Castillo, denies the statement that he has entered into an agreement with the United States to terminate the war in Cuba within a stated period.

A NEW TEST OF DEATH.

New applications of the X rays are still being made. Dr. Carl Brown has just discovered that they can be used as a test of death. Cases occur in which it is desirable to put beyond doubt the fact that death has supervened, and some of the methods of doing so are uncertain, while others are objectionable. Dr. Brown finds that a Roentgen photograph of a dead limb is easily distinguished from that of a living one. The muscular part of the former comes out decidedly darker. This is not the case a few hours only after death, but the difference becomes more and more perceptible as the tissue changes proceed. The same means should be available, on this account, to determine with some nearness the time which has elapsed since death took place, an important matter sometimes in cases which become the subject of criminal investigation.

NEEDLESS ALARM.

Whether the suffering which people undergo from disease is more physical than mental is a point not easy to decide. It depends largely on the nature of the disease, and the make-up of the individual. Experience seems to show, however, that in one prevailing disease—indigestion or dyspepsia, the two kinds of suffering are very evenly divided, and both very great. The mental distress being chiefly due to the illusions and deceptions which attend it. For example, though dyspepsia is solely an affection of the digestive organs, it has power to set up disorders in others which always alarm the sufferer, and often perplex his medical advisers. These symptoms or sequences may relate to the head, the heart, the sight, the hearing, the lungs, or to other organs or functions. Take an illustration or two.

"In the spring of 1891," says Mr. Edward Tatham, "I fell into a low, weak state of health. I had a foul taste in the mouth, and was constantly spitting up a thick phlegm. My appetite was poor and after eating I had fullness and pain at the chest—the latter seemed to be puffed or swollen. What made me most anxious was my breathing, which came to be so difficult and short that at times I could only catch my breath by an effort. I was led to fancy that something must all my lungs, especially as so great a quantity of mucus gathered in my throat and mouth. It was usually worse at night, and I got very little sleep on account of it; sometimes none at all. In a morning I would be quite worn out."

"As time went on I became very weak, and was much put to it to get about. I took all kinds of medicines and got no proper relief from anything. In February, 1892, Mr. William Beardsley, grocer, Cotmanhay, told me he had been cured of a like trouble by Mother Seigel's Curative Syrup. Acting on his advice I got a bottle of this medicine from Mr. Platt's Drug Stores, Awsworth Road, and after taking it felt quite another man. My breathing was easier, and my food agreed with me. I continued using the Syrup, and got stronger and better every day. When I had taken four bottles I was as well as ever, being free from all pain or discomfort. My wife, who has suffered for years from liver complaint, has taken the Syrup with the same good results as in my own case. You are at liberty to make any use you like of this statement. (Signed) Edward Tatham, Tatham's Lane, Cotmanhay Road, Ikeston, Derbyshire, March 21st, 1895."

"In October, 1888," writes another, "I began to feel weak, heavy, and tired. My appetite was poor, and after eating I had distress at the stomach, together with shortness of breath, and a good deal of pain across the chest. Sometimes I would be taken with sudden dizziness, as though I must fall to the ground. Cold, clammy sweats used to break out all over me and I trembled from head to foot. Finally, I got so weak I could scarcely walk to my work. Indeed, I had occasionally to leave my work; I have been away as long as a month at a time. In this way I suffered for about two years."

"In August, 1890, Mr. Thompson, the grocer in Church Street, urged me to try Mother Seigel's Syrup. After taking only one bottle I felt better. My food agreed with me and I was stronger. Continuing with this medicine, gradually all pain left me, and I completely recovered my health. Since then I have kept the Syrup in the house for use in time of need. You are free to publish this statement. (Signed) William Mallender, 71, Robinson's Buildings, Newhall, Walth, near Sheffield, October 11th, 1895."

Cases of supposed disease of the heart, of the nervous system, of the kidneys, &c., can be shown to be, not organic affections of those parts at all, but merely functional disturbances caused by the toxic or poisonous principles thrown into the blood by the decomposition or fermentation of food in the stomach; otherwise, by dyspepsia or indigestion. But until they are discovered to be so they are mistakenly treated, and serious, often fatal, results, follow. Until pronounced and undeniable symptoms of organic mischief show themselves (which is not the case once in a hundred times) you may take it for granted that your ailment is some form of dyspepsia, easily curable by Mother Seigel's Syrup, as demonstrated by the two instances cited above.

COLDS, COUGHS, INFLUENZA, SORE THROAT

Ayer's Cherry Pectoral

Will relieve the most distressing cough, soothe the inflamed membrane, loosen the phlegm, and induce refreshing sleep. For the cure of Croup, Whooping Cough, Sore Throat, and all the pulmonary troubles to which the young are so liable, there is no other remedy so effective as

AYER'S Cherry Pectoral

A Record of nearly 60 years

Gold Medals at the World's Chief Expositions.

The name, Ayer's Cherry Pectoral, is prominent on the wrapper and is blown in the glass of each bottle. Take no cheap imitation.

Pacific Hardware Co., Ltd.

FORT STREET, HONOLULU.

TO BUILD CABLEOpinion of Superintendent Wilson
of Vancouver.**COMPLETED IN EIGHTEEN MONTHS****Believes it Will Land Here
if Government Wishes.**No Subsidy Wanted—Just a Few
Concessions—Estimates Have
Been Furnished.

James Wilson, Superintendent of the Pacific Division of the Canadian Pacific Telegraph Company, is on a visit to Honolulu, and was seen yesterday regarding the possibilities of a cable line between Vancouver and Australia being built. Mr. Wilson spoke assuredly of the matter, and feels positive that within a year the construction of the line will begin.

"You have seen the dispatches announcing the meeting of the Cable Congress in London. To me that is assurance enough that the line will be built and it remains for the Government here to say whether or not there shall be a landing made here. The plan proposed is to have one line from New Zealand and another from some point in Australia. These lines will run to Fanning's Island, one of them touching probably at Suva first. From Fanning's the lines will merge into one and continue to Vancouver, connecting there with the Canadian Pacific transcontinental line.

"The men interested in building the British Pacific cable have gone to the extent of inviting estimates for the construction, submerging and maintenance of the line, and have found that the cost is considerably less than the estimate given by Sanford Fleming. You will understand that as yet there is no company; a conference has been held by men interested in the construction of a cable across the Pacific, and as an outcome of this conference it is probable an organization to be known as the Pacific Cable Company, will be formed. One unsettled point is, who shall have the maintenance of it—a cable company or the Government?"

"Would the cable company you speak of be one in which Sir Audley Coote is interested?"

"Not at all. Mr. Coote's company is a French organization, and would not be considered in this. Nor would any of the Atlantic cable companies be interested. The Pacific Cable Company would be an entirely different organization. As to the maintenance, it is possible that it would be controlled by the Government, as the telegraph lines in Great Britain and Australia are. In Canada and British Columbia we are independent. The Canadian Pacific controls those in British Columbia, and its lines extend from the Atlantic to the Pacific, but in Eastern Canada there are two other lines."

"Would there be any American capital in this new company?" was asked Mr. Wilson.

"That I cannot say, but I fancy not; there is an abundance of loose capital in Great Britain and Canada, so that it is hardly possible that any outside capital will be offered or required."

"Do you believe, Mr. Wilson, that if the Hawaiian Government would offer a concession, with certain privileges, but without a subsidy, the projectors of this British Pacific cable scheme would be willing to land on these islands?"

"While not authorized to state it as a fact, I have not the slightest doubt that the company will land the cable here. I have heard it said since my arrival here that in case the line runs direct to Vancouver from Fanning's Island, a local company will build from Honolulu to that point. This would be a foolish waste of money, for the reason that the transmission of a message from Honolulu to the United States in that way would cost double; the route to Fanning's Island and from there back to Vancouver. It is calculated that we can send messages from British Columbia to Australia at \$1 a word; the present rate we have to pay is double that figure. There is no reason why the \$1 rate should not prevail on the Pacific cable. I am familiar, of course, with Col. Spaulding's scheme, and it would be a very good thing for the islands if the line could be put in operation. Still, there seems to be a doubt about its consummation, and it would appear that the Government should do something towards securing prompt and rapid communication with the outer world. I understand, also, the intimate relations between this country and the United States, and I have been told that there is an objection to granting any concessions to a company not organized and controlled in the United States."

"I have been told, also, that the objection is based on the supposition that with the close relations existing between the two Governments the United States does not care to have British capital control the cable. While I am not familiar with the treaty existing, I should imagine that with all the interests of Americans here the United States would lend material aid to the furtherance of a scheme that would enable the Government there to communicate to its representatives here, or to this Government by the quickest possible means. But failing in this, and it is generally understood that the United States opposes subsidies, I do not see where it would interfere in anyway with the existing relations to have a British cable. One man went so far as to say that it would not be politic to send official messages over a cable not controlled by the United States. Considering that but one Amer-

ican cable crosses the Atlantic, and that that line is not always selected for the transmission of Government messages, and again that we of the Canadian Pacific are in daily receipt of messages for the commanders of American war ships at Esquimaux, this excuse is hardly plausible.

"The Pacific cable is an assured fact, whether it stops at Honolulu or not, but it appears to me that it will be to the interests of the people here to have the cable, and as soon as possible. There are a great many people in the United States, business men, who are anxious to visit the Islands, but who do not want to get away from the touch of the commercial centers, even though the touch be by wire. Every one of these men visiting Honolulu means so much money to the merchants. The Pacific cable can be built, the entire 6,000 miles, within 18 months from the time the work begins, and I am confident that the work of submerging one section of the cable will begin in less than a year."

HOW TO CURE BILIOUS COLIC.

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. Butler, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

Lessings has been styled the "Luther of German Literature," being to the letters of Germany what Luther was to its religion.

W. R. FARRINGTON, EDITOR.

FRIDAY, NOVEMBER 27, 1896.

FOR WHOM SPEAKEST THOU?

Now that the Fort street oracle has settled back into the position of a bucking mule—won't go ahead, won't endeavor to explain itself, won't do anything but kick and bite—nothing will be lost by devoting a little more space to its political meanderings. In the first place, the oracle seems to have become strangely mixed in associating this paper with the apparently offensive official board of the Annexation Club. This paper is by no means the mouthpiece of the Club, and the official board have treated with supreme contempt the unfortunate, almost cowardly, insinuations made against them. Doubtless they will continue to follow the same plan until the oracle has the courage, if such it possesses, to come from under cover and in an upright, man-fashion style designate the "push" who have herded the herd into the supposed wrecking the Annexation Club.

Again, whom does the oracle represent? Certainly not members of the Annexation Club, since the herd and the herders are working together most harmoniously, doing all that is possible to push the annexation movement forward by gathering up the lines temporarily dropped some months ago. Who, then, is the person who arrogates to himself the rights of censorship, and what are his proven qualifications for the office? Possibly the oracle will kindly rise to explain. It has not shown that it has voiced the sentiment of any of the friends of annexation; hence the natural conclusion that one to three men in the country must have very positive though sadly mistaken opinions. Now these individuals have a splendid opportunity to come out in the open and declare themselves like men. Now there is a splendid chance for the oracle to cover itself with glory and prove to the country that its editorial expressions represent the sentiment of one—even one—good, live, earnest and whole souled American or Hawaiian annexationist. Nothing has transpired thus far to prove that such is the case. Whatever the oracle may do, we hope something may now be heard from the direction of the Annexation Club.

ANNEXATION CLUB MEETING.

The call for the officers of the old Annexation Club to meet at the drill shed this evening shows that the counsels of wise and active men have been effective so far as the matter of meeting is concerned. This is certainly a very good beginning, and we trust that a full representation will be on hand, for now the vital problem of what to do and how to do it has to be solved and the solution will lose none of its power by having the hearty co-operation of every honest, earnest annexationist in the country.

As we understand the situation, the meeting tonight will not be to organize a brass band to begin playing immediately; it is not to display any unusual oratory; it is simply to consider the course of action to be followed by the annexation rank and file in supporting Government action. Senator McCandless believes it is time enough for the people to begin to cluster when the Executive or the Senate makes the request; he considers these two arms of the Government self-sufficient to carry out any proposition regarding annexation that may appear in the constitution of the Republic. Senator McCandless has good opinions, and he considers them well, but in this particular instance he apparently

has not laid the requisite stress upon the value of having the people already organized and ready for the call. No one wants to make light of the fact that this annexation business means work, and that work can't be done entirely by the Executive Council and the Senate. These two bodies will put on the fine diplomatic finishing touches, while the rank and file will take off their coats and see that there is nothing wanting in the advance guard and the rear guard of the body of men who stand behind the diplomatic procession.

It is the duty of the Annexation Club to take care of little odds and ends here and there, details which the Government might not at this time care to touch upon. Possibly the Club might send a slight reminder of its existence to President-elect McKinley. The most ardent supporter of the present American administration could take no offense at this. Possibly it might revive a few fainting hearts who have a foolish idea that all the sugar men are opposed to annexation. There is no harm in that. In fact there are a hundred and one little matters in which the Annexation Club can make its power for good felt during the next three months. All can be done in a quiet, unostentatious way that will injure the feelings of no one. The meeting tonight will be sort of a pleasant beginning that will set the wheels in motion, and once moving properly they are bound to revolve successfully.

While no one has ever discounted the fact that the recent campaign in the United States was the most tremendous struggle ever made in that country for political supremacy, some of the post-election figures give a better idea of how hard fought was the battle all along the line. During the last week of the campaign William Hahn of the Republican National headquarters, who had charge of the speakers' bureau, had under his direction the following number of stump speakers: Illinois, 3,000; Indiana, 2,000; Wisconsin, 1,000; Minnesota, 1,400; Iowa, 1,600; Michigan, 2,000; Missouri, 1,200; Ohio, 1,600; Kansas, 1,200; Nebraska, 1,000; North Dakota, 400; South Dakota, 900; total, 17,300. It seems almost impossible that such an immense crowd could be kept in profitable movement, yet all these men were kept at work daily and nightly, and the engagement of each one lasted until the night before the election. It will also be noted that only the figures in the doubtful States are given, so that 30,000 would be a most conservative estimate of the number of Republican speakers at work throughout the Union. Add to the Republican forces the sound money Democrats, and the United States army would be put in the shade by the array of public speakers.

Mr. Wilson's story of the British Pacific cable plans will certainly be a revelation to many people in this country. We sincerely hope that Mr. Wilson is none too sanguine of what will be done by the Imperial and Colonial governments in the near future. When the high contracting parties have formally decided upon the final details of controlling the new line they will doubtless make a proposition to holders of the "Key to the Pacific." A private company cannot obtain concessions from Hawaii until the Spalding contract expires, but a cable under national direction can, under treaty rights, be landed on these Islands at any and all times. It is possible that the British cable promoters may give Hawaii the "go by," but by no means probable. While naturally disposed to favor an American line, it will indeed be refreshing if this Government is called upon to give aid to a cable enterprise upon which larger and more wealth

thy nations have combined. The program heretofore has been to secure subsidy and concessions from Hawaii, and armed with these, approach the powers whose co-operation must be secured to carry the scheme through. A change will be most acceptable. Let the big fellows act and little Hawaii can be depended upon to do her full share.

No better tribute to the purposes and spirit of the Christian Endeavor Society has been given than that expressed by the Catholic Review when it said recently: "If we can transfer a little of their enthusiasm and intense zeal and devotion to the tepid, half-hearted portion of our own people who are mere nominal Catholics, we need not be ashamed to acknowledge ourselves indebted to them for a very valuable acquisition." One of the greatest blessings of the Christian Endeavor movement is its tendency to wipe out denominational lines and unite all humanity into one grand army for furthering higher Christian manhood and womanhood. While this comment of the Catholic Review by no means presupposes any combination of religious beliefs, it is not impossible that the seeds of broadened and more liberal ideas sown by the Protestant society may in years to come result in breaking down to a great degree the barriers which now separate powerful religious bodies by sharply defined lines. The march of civilization for centuries past has been along these lines, and there is no reason to believe that it will not continue in the same pathway.

The proper appetizer for a Thanksgiving dinner in this day and generation is a foot ball game, consequently there should be a big majority of Honolulu people at the game Thursday afternoon. Aside from the propriety of the thing, the forthcoming contest will doubtless be one of the season's best athletic exhibitions. The playing in previous games has been sharp enough to keep matters interesting and stir up a good bit of rivalry between the two teams. The public has also waked up to the proper spirit and will be on hand to cheer the victors and console the vanquished. The Panahous have had the advantages of training under a skilled athlete, while well known Canadian foot ball enthusiasts have given the town boys the benefit of their experience. It will do people good to get out and see how the young blood of Honolulu handles the great 'varsity game.

The Japan Mail is authority for the assertion that Japanese officials are the least corrupt of any national representatives on the face of the globe. In strict attention to duty they rival the Prussians, but they have a still greater advantage in always being polite. "If a Japanese official is not polite it is always the fault of some foreigner who, because he happens to have money enough to go globe-trotting, acts as if the whole earth belonged to him." If this is true, and we do not doubt it, Japan has in this one factor one of the greatest and best forces to aid it in becoming the powerful nation to which its ambitious lead. May the advance of "civilization" in politics never contaminate the integrity of the Japanese nation.

The Thanksgiving day events in this year 1896 were not such, in outward demonstration, as to mark the occasion as a day of all other days in the annals of history; yet the general closing of business houses and the large attendance at the churches in the morning gave evidence that the people were alive to the true sentiment of national thanksgiving expressed in the proclamation of the Chief Executive. Those who were able to gather about the home circle, unbroken by sickness and death and cheered by the good things that a

year of great national prosperity brings, could see and did appreciate the many blessings which the country and its people have experienced.

THANKSGIVING SERVICES.**The Churches All Well Attended and Good Sermons Heard.**

The churches in the city yesterday having the usual Thanksgiving services were well attended, and the various congregations listened to appropriate sermons. At the Central Union Rev. D. P. Birnie preached an eloquent discourse.

The Christian Church united with the First Methodist, and Rev. J. M. Monroe of the former church preached a beautiful sermon.

There was a large congregation present at the Thanksgiving service at 10 o'clock at St. Andrew's Cathedral. The chancel was prettily decorated by the sisters and pupils of St. Andrew's Priory, with potted palms and ferns, while on the altar were several large bouquets of choice flowers. The pastor, Rev. Alex. Mackintosh, was assisted in the service by the Rev. V. H. Kitcat, who read the lessons, and the Rev. S. Byrde of Kohala, who read part of the service. The music by the choir was very fine and included Woodward's Te Deum in E flat, Wray Taylor's Jubilate in E, and the splendid anthem, "Sing, O Heavens, and Be Joyful," by C. Hall. In the latter Miss McGrew gave an excellent rendition of the soprano solo. She sang it beautifully. Mr. T. May had the tenor solo and rendered it with telling effect. The basses were led by the veteran, J. W. Yarnley. Two special hymns were sung; indeed the chorus singing by the choir was most enjoyable. The Rev. Alex. Mackintosh occupied the pulpit and his discourse was most appropriate to the occasion. The collection taken up was for the Society for the Propagation of the Gospel in Foreign Parts. At the conclusion of the service the organist, Wray Taylor, played a Harvest Thanksgiving march.

VALUABLE GIFT.**Portrait of Doctor McKibbin by Artist Fred Yates.**

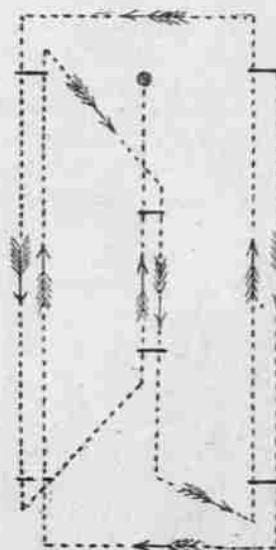

During Fred Yates' sojourn in Honolulu he has been a frequent guest at the board of the Pacific Club, and as a token of appreciation of the uniform kindness of the members, Mr. Yates volunteered to present the club with a portrait of any one of the members which the club might designate. Dr. McKibbin, one of the oldest members of the organization, was the one selected, and Mr. Yates gave the doctor three sittings, producing in a few hours a most life-like portrait of the gentleman. Mr. Yates enjoys painting a person in the position in which he gets his first impression, particularly if it is one natural or peculiar to the subject. The portrait of Dr. McKibbin represents him in an easy pose, with a paper on his lap, and in the act of filling his pipe. It is the position in which he is oftenest seen by members of the club.

In every respect it is wonderfully true to nature, and is characterized by the bold handling which is a feature in this famous artist's work. It was placed on exhibition in the Pacific Hardware Company's art rooms yesterday, and was admired by a large number of friends. When it has been appropriately marked it will be hung in the club's parlor.

NEW WAY TO PLAY CROQUET.

We do not hear much about croquet nowadays, but it has its devotees still, and they are as wildly enthusiastic over it as any man who ever pursued a golf ball.

This year they have devised a new method of laying out the ground, which

**THE NEW WAY TO LAY OUT A CROQUET GROUND.**

adds to the complications of the game considerably. As the diagram shows, there is only one stake and only six wickets; but that, instead of simplifying the game, is said to render it even more interesting.

IN A TYPHOON.**Rough Experience of the Bark Hesper.**

SEATTLE, WASH., Oct. 29th.—The bark Hesper, of San Francisco, Capt. F. O. Sodergren, now at Port Blakeley, has had another exciting adventure. This time it was with a typhoon instead of a volcano or mutiny. The typhoon lasted 67½ hours. For 7½ hours the vessel was becalmed in the center of the typhoon. During the storm the barometer jumped and fell as

Shy on Shoes?

If you are, come in. We are looking for just such people as you, because we have several thousand dollars' worth of shoes we would like to get rid of. No; we are not going to give them away; not yet, at least.

They're worth money—more money than we are going to ask you to pay—and we think they'll find purchasers before we have to resort to the desperate method of giving them away.

All of our shoes have the price marked upon the box, and they tell their own story.

much as two-tenths at a time, which is equal to two inches in measurement. Capt. Sodergren says that he has never known a barometer to act so before. Capt. Sodergren said: "We sailed from Tien-tsin August 31st. September 9th at 4 a. m. the typhoon struck us as we were passing from the Eastern Sea into the Pacific and 30 miles from shore. The barometer had given us ample time. In order to keep from going ashore we had to lower the top-sails set. The typhoon came from the northeast."

"When the hurricane struck us, the vessel went over so that the lee rail was under water and there it remained for 30 hours. It was impossible to see the length of the ship. The sails were ripped into ribbons with a noise like cannon. With three men at the wheel the gear broke. We managed to rig tackles, which held through the storm."

"After being 30 hours in the fury of the waves we found ourselves in a calm, which lasted 7½ hours. Then we were struck on the other side and had 30 hours more of battle. The barometer went down to 28.35. It would jump at once from 28.35 to 28.55 and then back again. I came near losing all confidence in it."

THE BIG METEORITE.

The New York Museum, which already contains 55 meteoritic fragments, has not yet succeeded in annexing the 40-ton aroliite which is lying on an island near Cape York, Greenland. Lieut. Peary has had to return without it. The machinery taken out for the purpose of tackling it proved too weak, and it had to be left behind till next year. It appears the natives have been using it for some time as a source of workable iron, and on that account the honesty of carrying it off without compensation is somewhat questionable. The least thing the Yankee can do is to ballast the vessel they send for it with pig-iron, and leave a pile of the latter in place of the coveted specimen.

An explosion of acetylene gas, used for lighting in a Lyons cafe, completely wrecked the cafe, severely injured three persons who were in it at the time, broke every pane of glass in the building, which is four stories high, and tore off the doors from their hinges on the first two stories.

Is Your Now

Blood pure? Do not pass by this question with an evasive answer. It means much to your health, your happiness, your usefulness. If your blood is pure you will be strong, vigorous, full of life and ambition; your nerves will be steady. You will have little need to fear disease if your

Blood

Is pure and you keep it so. Now is the time to see that your blood is pure, and to give it richness and vitality and the life and strength-giving properties which are required, nothing can equal Hood's Sarsaparilla. It makes

Pure

Rich, Red Blood. It will overcome that tired feeling, create an appetite, give sweet, refreshing sleep and make you strong. It will build you up and enable you to resist the enervating effects of warm or changeable weather. Is not this exactly what you want? Then take

NOTICE.

TO WHOM IT MAY CONCERN:—Notice is hereby given by the undersigned that his wife, Minnie Hardy, has left his bed and board without cause or provocation, without his consent and against his will. All persons are therefore hereby notified not to harbor or trust her on my account, as I will not be responsible for any debts contracted by her. J. F. HARDY. 1815-2t

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plows, Railways and Hoists; also furnish light and power for a radius of from 15 to 25 miles.

Electric power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

EXCITING THANKSGIVING GAME

In Which Both Teams
Fight Stubbornly.

First Half Closes With a Score for
Neither—Conrad Makes the
Only Touch Down.

The Punahou boys were the favorites, if yelling and odds in bets were any criterion by which to judge, but they bumped up against a cast-iron obstacle when they struck the bonnie defenders of the scarlet and white—the colors of the H. A. A. C., whose yell: "Who are we; who are we; we are; we are H. A. A. C.," resounded more than once through the Makiki Baseball Grounds, where the great Thanksgiving game was played. Time and again did the students attempt to go around the ends or to make a break through the center, but they met the same stubborn resistance. The Honolulu boys had made up their minds to do or die, and they "did." However, this fact is by no means a disparagement to the students, for they played with pluck and vigor equal to that of the Town boys, and did some of the finest playing of the game.

Without one exception, perhaps, yesterday's football contest (began at 3:45 and ended at 5:15) was the best that has ever been seen on Hawaiian soil, the score of 4 to 0 at once explaining that fact very well. There was gentlemanly playing and a good spirit manifested throughout. No matter how close was the fighting and however good the chance for a sly punch, there was a respect, each for the other team, which made the game both interesting to look at and capable of enjoyment as clean sport. Outside of a few bruises and several cases of wind entirely knocked out, there was nothing in the line of injury calculated to mar the game.

The grand stand was crowded to its utmost capacity, and perhaps beyond. Never has a larger crowd been present on the grounds. The space set apart for the carriages was entirely taken up, and many were the fair ones present who wore either the buff and the blue or the scarlet and white. Promi-

Depends your future happiness. Remember this, and also remember that we sell the finest-soled shoes, the finest of kid uppers, and give value for value received. We are leaders, not imitators.

ment among the people present were the members of the Hawaiian Band, under the leadership of Prof. Berger, who played little snatches of popular airs whenever the opportunity afforded and who made every one feel like dancing or shouting.

FIRST HALF.

At 3:45 p. m. the teams lined up with the Town team on the makai side of the field. The Punahou took the ball and made the first kick-off. Chillingworth took the ball and ran half way down the field. Cupid tried to go around the right end, but he couldn't get past the Punahou men. Conrad kicked the ball, and Antonio Long, catching it, made 15 yards, which he followed by another gain for about the same amount. The Punahou were then given 10 yards on an off-side play, and then made 4 yards through the center. Cunha tried to go around the right, but was unable to gain. Wade Armstrong made 4 yards, but it was the fourth down and they needed more.

Honolulu's ball with Cupid making a long run about half way down the field. After one or two more plays, without much gain, the ball went back to the students. Armstrong and Ingalls made small gains, and then an off-side play gave the Punahou 10 yards. Elia Long went around the left end for 15 yards. Punahou fumbled the ball, and Cunha took it again, but failed to make a gain. Armstrong was tackled by Conrad in his attempt to go through the Town team's line.

Town team's ball with Conrad and Cockett making small gains. The Town boys lost the ball, but luckily Conrad got it. He was tackled by Antonio Long in his effort to make a run and lost 2 yards in the transaction. The Town boys being pushed on account of no gain, Conrad kicked the ball. Antonio Long and Elia Long made small gains and then Ingalls went through the center for 4 yards. Greenwell made 10 yards around the right. Conrad got the ball out of the bunch, but was tackled by Elia Long, after making a gain of 5 yards. Armstrong was tackled by Cornwell. No gain.

Town team's ball and losing ground. Cockett made 4 yards, but it was not enough and the ball went to the students. The ball was fumbled with the result of a loss of about 3 yards. The ball was lost again, and after a series of fumbles the Town boys took it. Conrad and Cornwell made about 5 yards a piece. Ball lost on downs to Punahou. Wade Armstrong made 4 yards and Greenwell lost. Sam Parker made 6 yards around the right, and Ingalls went through the center 8 yards. Antonio Long made 10 yards, and then Kluegel, in attempting to go around the left end, was carried back by the Town team. Ball lost.

Honolulu's ball with Cornwell fumbling the same. Cupid took it and made 5 yards before he was tackled. Punahou's ball on downs. Small gains on the part of Armstrong, Ingalls, Antonio Long, and Kluegel advanced the ball to about the center of the field when time was called.

Both sides were glad of the 10 minute rest for it gave them time to breathe and think over the part of the game already gone by. Each team was immediately surrounded by its contingent as soon as they went off the field for there were things to say that would not do for every one to hear. Just at this time a mean drizzle began to fall and coat collars went up. Ten minutes had passed when the band released to silence and the teams, not as spry as in the beginning of the game but equally as determined, marched out upon the gridiron with the Town team meuka and the Punahou meka.

SECOND HALF.

Town team's ball, with Conrad's foot in contact for a rainbow kick-off to Kluegel, who took the ball down to within 15 yards of the start-off. Ingalls made two gains of about 4 yards each, and then Antonio Long crawled along for a small gain. Punahou lost steadily, and the ball went to the Town team on downs.

Town team's ball, with Chris Holt making an almost imperceptible gain. Damon suddenly thought of something, and, making a desperate dash, ran toward the goal for 25 yards. Just as he came near Antonio Long, who was awaiting him with outstretched arms, he slipped and slid right into his opponent. Conrad thought of all his past sins and determined to make amends, so he doubled himself into a jack-knife shape and bucked the center for 10 yards, after which he made 12 more. This brought the ball to within 2 yards of Punahou's goal. There was a fumble, and then when all hands were down on the ball Wade Armstrong suddenly emerged from the pile with the ball in his hands. It didn't take him long to get his weather eye on the Town team's goal, but some one was after him, and he only made 10 yards.

Antonio Long and Ingalls made small gains, but not sufficient to keep the ball.

The Town team's ball, with Conrad in front of them for 5 yards, and for 4 more and a touch-down to right of the goal.

There was a deafening roar, and the scarlet and white waved high above the buff and blue. The squeaks of the Chinese hautboys and the blasts of the exaggerated tin horns formed a fit accompaniment to the Indian-like jumps and the roar already spoken of. The Town boys failed to kick goal.

Score: Honolulu, 4; Punahou, 0. Punahou's kick-off, with Parker doing the honors; Damon got the ball, but was stopped in his operations by Cornwell. Town teams lost on downs and the Punahou started with Ingalls for 5 yards through the center. Then came 3 and 4 yards by Rawlins and Antonio Long respectively, and an off-side play, which gave them 10 yards. Rawlins made another 5 yards, when he was tackled by Damon. Ingalls and Cunha could make no gains around the ends, and the ball went to the other side.

Town team's ball, and after failing to make the requisite gain, Conrad tried a kick. The ball rolled along, and Cornwell tried to get it, but Elia Long took it before him and took the ball in touch, after making about 8 yards. Howard and Elia Long failed to make any gain, and Parker kicked the ball, which was caught by Cornwell on the second bounce. A gain of 5 yards was made when the Town boys were given 10 yards for an off-side play. At this point Ingalls was forced to retire, and W. Damon took his place. W. Damon made 4 yards and Rawlins and Howard small gains. Town team's ball on downs.

Town team's ball, with Carlos Long trying to make a hole through the center. Conrad made a beautiful run of about 23 yards, and then the Town boys kept pushing the ball steadily toward Punahou's goal. The resistance offered was stubborn, but unavailing, and when the whistle blew for "time," the Town team was very close to Punahou's goal.

Score: Town team, 4; Punahou, 0. George R. Carter acted as umpire; Ed Austin of the Regiment team as referee and Harry Waterhouse and George Clarke as linesmen. The teams were as follows:

PUNAHOU.

W. Greenwell, R. E. Prof. Howard, R. T. A. Cunha, R. G. Allan Judd, C. Sam Parker, Jr., L. G. W. Rawlins, L. T. W. Armstrong, L. E. H. Kluegel, Q. B. E. Long, R. H. Prof. Ingalls (Captain), L. H. A. Long, F. B.

SUBSTITUTES.

TOWN TEAM.

Fred Damon, R. E. Chris Holt, R. T. M. Tuft, R. G. C. A. Long (Captain), C. Isaac Cockett, L. G. C. F. Chillingworth, L. T. Prince Cupid, L. E. George Waterhouse, Q. B. W. H. Cornwell, Jr., R. H. August Conrad, F. B.

SUBSTITUTES.

John Lane, George Angus, P. Lishman, H. Hapai, D. Koli.

BRAVO ADVERTISER.

Star Team Defeated in a Game Played Yesterday.

"They geyed us last week and laughed because they did us up," piped little M. Lewis, Captain of the Advertiser Carriers Baseball team, as he walked into this office yesterday afternoon. "But our time now, and we are going to holler," continued he, while speaking about the Star team. The contest hinted at took place on the vacant space in front of the railroad depot, and as has already been implied the Advertiser and Star teams were the ones who took part. The teams were as follows:

Advertiser Team.—M. Moses, c.; Makakohe, p.; Kealohe, 1b.; Jesse Smith, 2b.; M. Lewis (Capt.), 3b.; Keahinu ss.; George Nichols, cf.; J. Moses, if.

Star.—Kipl, c.; Kikila, p.; M. Aimos, 1b.; C. Santos, 2b.; J. Lewis, 3b.; J. Lewis, 3b.; F. Luning (Capt.), ss.; Kealo Koli, if.; J. Alameda, cf.

The full nine innings were played, but the teams contained only eight men, the position of right field having been done away with. Following was the score by innings:

Innings—	1	2	3	4	5	6	7	8	9
Advertiser	0	0	0	1	0	0	4	0	6
Star	0	0	0	0	0	0	0	0	1

In the last game between the Stars and Advertiser teams the former won by a score of 8 to 7, while the score of yesterday was 11 to 7.

NUT CANDIES.

Put the white of an egg into a glass and add an equal amount of water. Beat together until well mixed; then put into a bowl and add enough pulverized (confectioners') XXX (best) sugar to thicken it. Add one teaspoonful of vanilla or a very few drops of extract of rose. Take the stones from dates and make a roll of the sugar mixture and place in the date, as you see it done with confectioners' candy. You may also place the kernels of English walnuts on either side of a round piece of the mixture, pinching the nuts slightly together, or cut a pecan nut or an almond in halves, and put the pieces of nuts on a small piece of the candy. You may vary this in many other ways, and so make a very attractive variety of candy.

HOSPITAL PLANS

Hilo Citizens Get Together and Discuss the Situation.

ANOTHER EARTHQUAKE SHOCK

Hilo Woman's Board and Kindergartens.

Interesting Personal and Business Notes From the Big Island.

HILO, HAWAII, Nov. 23d.—At the late session of the Legislature an appropriation of \$2,500 was made for the purpose of erecting a hospital building in Hilo. The amount is now available, and public meetings are being held to discuss plans for selecting a site and proceeding with the business of construction. The first meeting drew forth a small attendance, and a committee of investigation was appointed as follows: Judge Hitchcock, Senator Lyman, Representative Richards, E. N. Holmes, C. C. Kennedy and Dr. Williams. The Tribune made an earnest appeal for a large attendance at the second meeting. About 40 of the best citizens responded to the call, and the committee reported that Mr. Kennedy had made an offer of a site at Waiakea, the selection of the same to be left to the public or their representative committee. This is a most liberal offer on the part of the manager at Waiakea, as there are some excellent locations from which to make a choice. The president of the Board of Health guarantees \$100 per month toward current expenses, and the Government will, doubtless, install a number of Sisters of Charity to take charge of the institution. At a future meeting some action will be taken respecting the building of Government warehouses for the storage of oil and powder.

Shortly before 2 o'clock last Tuesday afternoon Hilo was treated to an earthquake shock which was not severe enough to cause any damage, though it was quite a little shake. The quiver was quite generally felt over the island.

The Hilo Woman's Board of Missions held a most interesting meeting in the church parlors on Tuesday afternoon. Reports from the free kindergarten and the Chinese kindergarten were read, as also several splendid papers. It is to be hoped that many new subscribers will be added to the old list by the first of the year, so that the new year may see a suitable home for the free kindergarten. Miss Guild has between 40 and 50 children thoroughly in love with the kindergarten work, and the people want to see the beautiful work continued.

The Teachers' Reading Circle met at Union School Building Friday evening. Mrs. Townsend presiding. A most profitable evening was spent in the discussion of Page's Theory, etc.

Miss Annie Rose and Ed Weight of Onomea joined in the celebration of their natal day anniversaries on Saturday last. About 40 friends, from Hakalau to Hilo, attended the sumptuous luau at Onomea Saturday evening, and a most glorious time was had. The feast included the finest and best of Hawaiian dishes and the standard was par excellence. A number of the guests from afar camped at Onomea over night.

Editor Sparrow of the Tribune invited some of his friends to a dinner party at the Club Restaurant on Saturday evening. Covers were laid for 10, and mine host honored the occasion by furnishing an up-to-date dinner in fine style. Wit and repartee flowed freely, and a generally happy time was spent over the discussion of the menu.

Mr. and Mrs. J. R. Wilson entertained a number of friends on Friday evening. Card playing in the early evening was followed by several musical selections, after which the guests gathered around the table and enjoyed delicious refreshments.

Miss E. Richardson and Miss Ellen Lyman are extending invitations to a private fair and entertainment to be held at the home of the former on Saturday evening for the purpose of raising funds for the Christmas tree for the Halle Sabbath School.

Invitations are out for a card party at the home of Judge Hitchcock this evening.

If this charming weather continues throughout the week the yacht race on Thanksgiving morning will be witnessed by a large concourse of people no doubt. Four boats will enter: Senator Lyman's Sunbeam, Mr. Severance's Aurora, Dr. Hutchinson's Asthore and the new boat Nonesuch, built and owned by the Hilo Boarding School.

Ed Wilhelm, who returned from Honolulu on Saturday evening, reports that he has so far completed arrangements for the building of a new furnace and oven for his bakery that he will be ready for business by the end of December. The new bakery will be on King street, near Front.

The bark Roderick Dhu, Rock master, arrived on Thursday last, 17 days from San Francisco. She brought 83 mules and horses, 1,600 tons freight and 13 passengers: Capt. Wm. Matson, wife and child, Miss Mabel Howard, Mrs. C. B. Zahriske and daughter, Capt. R. A. Williams, C. J. Fisher, Mrs. Chas. Lewis, B. T. McCulloch, Tony Marshall, Alfred Grindell and Sam Thomas. Since her last voyage to Hilo, the Roderick has undergone considerable change. About \$5,000 has been spent in overhauling the vessel,

and in making alterations necessary for transforming the ship into a bark. She carries about 300 square feet more sail now. She will remain in port about two weeks and return to San Francisco in ballast.

The bark Santiago will be due early in December.

The Kinaiu brought a number of passengers for the Volcano, besides many Hiloites.

L. Turner returned, leaving his wife in the metropolis to enjoy the opera.

Mrs. E. D. Baldwin is home again, after an absence of nearly two months on Maui and Oahu.

Mr. Wise, a new-comer, expects to enter into the practice of law with our esteemed townsman, Hon. D. H. Hitchcock.

H. L. Shaw of the Hollister Drug Company is here for a temporary residence. He will assume charge of the Hilo Drug Store while Mr. Barthrop fills his place with the Honolulu firm for a time.

Customs Officer A. B. Richardson goes to Honolulu tomorrow.

Mr. Ward of San Francisco arrived per Kinaiu Saturday evening under engagement to the Hilo harness shop. He is domiciled at "The Castle."

Mr. Howard, late foreman of the Hawaii Herald, resigned his position last week and embarked for Honolulu on the Claudine, from whence he expects to return to San Francisco.

Mrs. Lewis is visiting her father, Dr. C. H. Wetmore.

Miss Deyo, principal of Union School, returned per Claudine Friday morning after an absence of several months at her Eastern home.

Capt. Matson and family are guests at the Severance home.

Last Tuesday evening a baby girl was born to the wife of Luther S. August, at Kailua, Kona.

LOCAL BREVITIES.

Read E. W. Jordan's list of Christmas goods.

Mrs. C. A. Brown is able to be out driving after several weeks in bed nursing a sprained ankle.

A \$750,000 aquarium and marine biological station is to be constructed under the auspices of the Bishop Museum at Honolulu.

It is said that James Campbell has offered \$22,500 for the Odd Fellows' building on Fort street. The price asked is \$25,000.

Hitchcock and Wise, Attorneys at Law, Hilo, solicit business of Honolulu merchants and attorneys. They have a card in this paper.

The regular weekly meeting of the Board of Education will be held at 2:30 p. m. today. The Practice School matter will again come up for discussion.

There was no meeting of the Board of Health Wednesday. There was not much business to be transacted and the meeting was postponed until next Wednesday.

The Misses A. and M. Woods, sisters of Sam Woods of Theo. H. Davies & Co., arrived from Hawaii on the steamer Kinaiu, Wednesday. They are the guests of Mr. and Mrs. T. Rain Walker.

Notice is given in another column that certain named lots of the old Homestead Series may be applied for under the provisions of the Land Act, for right of purchase leases and cash freeholds, on or after 9 o'clock Thursday morning, December 10th next.

In addition to the already large and varied stock always to be found at L. B. Keer's, this go-ahead firm received per late arrivals large invoices of new goods, comprising Valenciennes and Torchon edgings and insertions; plain and dotted swiss muslins, and linen towels and toweling. Intending buyers will do well to examine them.

The three-year-old boy of J. A. Johnson, of Lynn Center, Ill., is subject to attacks of croup. Mr. Johnson says he is satisfied that the timely use of Chamberlain's Cough Remedy, during a severe attack, saved his little boy's life. He is in the drug business, a member of the firm of Johnson Bros. of that place; and they handle a great many patent medicines for throat and lung diseases. He had all these to choose from, and skilled physicians ready to respond to his call, but selected this remedy for use in his own family at a time when his child's life was in danger, because he knew it to be superior to any other, and famous the country over for its cures of croup. Mr. Johnson says this is the best selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

THE PROCESSION.

Good Turn Out by the First Regiment, N. G. H.

The parade of the First Regiment, N. G. H., and review by President Dole and staff yesterday was a very successful affair. Only one or two companies failing to muster their full strength.

The regiment left the barracks at 9 o'clock and marched over the usual route, returning to the Executive grounds about an hour later, where the President reviewed them from the veranda of the Executive building. Considering that the streets were muddy, the marching was very fine, that of the platoon of police under Capt. Parker being particularly commendable.

A third warning given to a Russian newspaper by the censors carries with it entire suppression.

LEWIS & CO.

SOME People do not care for Breakfast Mush, but those whose faces bear the blush of health are the ones who eat it. We have just added to our stock a large assortment from the Del Monte mills. It includes "Morning Meal" (wheat), Cream Flake (oats), and breakfast oats. We have also whole wheat flour in 10 lb. bags. Good breakfast dishes these and so is a bit of smoked Halibut or Salmon of the sort we sell.

Fresh Cranberries go well as a sauce for turkey; we sell them.

For lunch dainties we have a thousand and one articles, but there is nothing better than Royan's a la Bordelaise, a little sardine packed with tomato sauce, and chopped mushy ome. For luncheon these are excellent. Leinarchand's Genuine Sardines are the best obtainable in France; we have less expensive ones that are caught anywhere.

Brilliantine is the best metal polisher known. We have the paste in small tins and the liquid in half pints and larger. You cannot make a mistake in buying this.

MUCH FOR LITTLE

Notable Bryan Dinner by
Kauai Enthusiast.

Foretaste That Was Not Realized.
Birthday Celebration at the
Spalding Home.

KEALIA, Kauai, Nov. 20.—Perhaps one of the pleasantest little social events of the season at Kealia was a stag dinner given by Stephen G. O. King, Tuesday evening, November 17, in honor of William Jennings Bryan of Nebraska, U. S. A., who Mr. King innocently believed would be the successor of Mr. Cleveland as chief of the greatest nation on earth. Happy mistake for Mr. King as far as this dinner was concerned, for he was in possession of a magnificent ten-dollar appetite and enjoyed the spread, which might not have been the case had the truth been known to him.

This was a political dinner, unique in many respects, and a success that deserves a brief description.

The table was laid with silver, crystal and fine china for four. The decorations were extremely artistic and consisted of red, white and blue silk, and maiden-hair ferns, very prettily arranged. The boutonnières were of red and white carnations done up in blue silk bows.

Of the guests, the venerable Mr. Thomas Cummins occupied the seat of honor at the head of the table. Opposite to him was H. Z. Austin—these two gentlemen are staunch McKinley gold men. Stephen G. O. King sat on the right of Mr. Cummins, with George Mundon opposite as his political support, they both being ardent admirers of Mr. Bryan and most emphatic white metal men. And thus the torture began.

Two of Kealia's most charming young "buds" just blossoming into womanly loveliness, in costume, one an exquisite petite blonde as a "gold bug," the other a brunette of a rare type of beauty as a "silver bee," waited upon the table and looked after the wants of their respective partisans, and served them most gracefully with the following menu:

Huiters.	No Olives.
Deep Sea-fish Blues.	No Nothing.
No Salary.	No Nothing.
Elin Stein.	Potage.

Cafe Blanche.	Cafe Noir.
	Elin Flipp.

There was choice instrumental and vocal music during the entire course of this excellent banquet and in addition Mrs. King regaled the company with a number of exquisite classical selections on the piano, with an occasional "Yankee Doodle."

Afterwards Mr. Tommie Timmins entertained the company with a very graceful dance—a la the adorable Elsie Adair, Honolulu's favorite. The above young lady is a recent acquisition to Kealia society, and will favor Honolulu with a brief season after she has terminated her visit with Kauai.

Politics was then the order of the evening; the great question of the hour being discussed in all its bearing upon life and society. And although the arguments for and against, were at times quite spirited the best of good feeling prevailed to the end of this unqualified gastronomic success.

Upon the arrival of the "Mikahala" Wednesday morning, the people turned out en masse to hear the glorious news of the McKinley avalanche. The white metal men bore the overwhelming defeat of their cause with philosophical stoicism. Mr. Mundon was heard to remark that he did not believe in hoarding gold, and would immediately commence to disburse and put into circulation the four hundred dollars gold that "Billy C." of Waikapu made him a present of last summer when "Antidote" succeeded in making that five-eighths in one, four. A performance that it will be remembered seemed to amuse the Maui gentlemen, immensely at the time, as evidenced by their unprecedented liberality. But unfortunately, Mr. Mundon is still a firm believer in the fifty-three cent

silver dollar and is issuing the white metal instead of gold, at a ratio of sixteen to one, I am told. It was reported in 1892, after the election returns were all in, that William Eassie had serious thoughts of taking advantage of the bankruptcy act; however that may be, and I cannot vouch for the truth of the report. 1896 finds friend William on his feet—both feet, a capitalist looking around for safe investments.

Invitation are out for a reception and dinner for the 29th inst. at "Cottage Hill" the home of Col. R. C. Spalding, Kealia, the occasion being the anniversary of Mrs. Spalding's birthday.

Kau Notes.

KAU, HAWAII, Nov. 23d.—Tuesday, November 17th, we had a very heavy earthquake shake at 1:45 p. m. This was felt all over the island.

Dr. R. I. Moore is making a professional visit to the district and will be here several weeks.

The Roderick Dhu arrived at Hilo from San Francisco on the 19th inst. W. H. Rice arrived by this Hall and went to Hilo to meet the Roderick, as he had mules to come by her. The vessel brought all the election news which appeared in the Tribune.

A Japanese woman was convicted of bigamy. She was sentenced to six months in prison and to pay a \$100 fine. Appeal noted.

"The worst cold I ever had in my life was cured by Chamberlain's Cough Remedy," writes W. H. Norton, of Sutter Creek, Cal. "This cold left me with a cough and I was expectorating all the time. The Remedy cured me, and I want all my friends when troubled with a cough or cold to use it, for it will do them good." Sold by all druggists and dealers. MRS. M. HANNA,
FASHIONABLE MILLINER.

Our I's and Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, wholesale and retail druggist, Duluth, Minn., who after a quarter of a century of observation writes:

"I have sold Ayer's Sarsaparilla for more than 25 years, both at wholesale and retail, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier that has been introduced to the general public." This, from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has "Nothing but words of praise for Ayer's Sarsaparilla."

Any doubt about it? Send for the "Curebook."
It kills doubts and cures doubters.

TROPIC OIL

For Engines and Cylinders

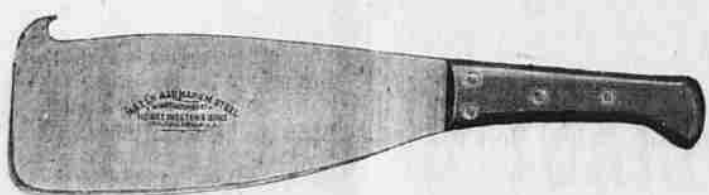

THIS IS THE OIL that Plantation Engineers are calling for.

19 Sugar Mills

Are using the TROPIC Engine and Cylinder Oils, and we have yet to hear of a case where it has not given perfect satisfaction.

The TROPIC is a pure, unadulterated lubricator, and is fully warranted to be of the highest possible grade and to give first-class satisfaction in every particular. It is made at one of the best Oil Refineries in Cleveland, Ohio, and is shipped direct to Honolulu without passing through the hands of any Middle-men, and we sell in original packages, barrels or cases. The great success that the TROPIC OIL has met with, during the past season, ought certainly to recommend it for use in every Sugar Mill.

We have just received ex Bark "Edward May" a fresh supply from Cleveland, and can supply immediately, or at any time specified, any quantity required.

HALL'S ALUMINUM CANE KNIVES

Are being used on TWENTY-SEVEN PLANTATIONS. They are made by H. Disston & Sons of Philadelphia, and are acknowledged by them to be the best knives they ever turned out. They are made of Aluminum Steel, with Apple-wood handles, secured with four rivets, and hang easier in the hand, when in use, than any other Cane Knives. The fact that the cane cutters prefer these knives to all others, because they do not tire their hands, and they can do much more work in a day, is sufficient guarantee of their superiority.

We have just received over a hundred dozen from the Factory, and can supply Plantations now or at any time during the coming season. Plantations that have not yet tried them, should send for a sample lot, and give them a trial. We have them with the hook and without.

FANNING'S ISLAND

Trouble Among the Greig Executors.

CAPTAIN REID FAILS TO ACCOUNT

Matter Before the High Courts in Fiji.

Gunboat Said to Have Been Sent to Fanning's—Both Sides Must Appear in March.

George B. Greig, mentioned in the following article taken from the Fiji Times, November 7th, is well known in Honolulu. He has relatives here, and the article, therefore, will be read with interest by all of the old residents of the Islands. Mr. Greig could not be seen last night to verify a rumor that Capt. Reid had left Suva for Fanning's and that the High Commissioner has sent a war ship to Fanning's to see that he did not disobey the injunction of the court.

High Commissioners' Court for the Western Pacific. (Before His Honor Sir H. S. Berkeley, C.J.) Probate Jurisdiction. In re William Greig's Estate. Thursday, October 29th, 1896. This was a petition presented by Edwin Denis Reid, of Sydney, New South Wales, master-mariner, claiming as an executor of the late William Greig, of Fanning and Washington Islands, Western Pacific, and as guardian of two of his infant children, that his co-executor, George Bicknell Greig, who is the eldest son of the deceased, should be ordered to file an account of his administration of the estate; that the court would give directions as to the custody of the estate papers and also provide for the management of the estate by the appointment of a receiver or otherwise. The petition further contained the usual prayer for general relief and directions.

Mr. Garrick appeared for the petitioner, Capt. Reid, and the Attorney General for the respondent, George Bicknell Greig. Mr. Garrick, in opening the case, stated that the will of the deceased William Greig had only recently been proved, and read the petition and the affidavit of Capt. Reid in support, and also the counter affidavits of the respondent, G. B. Greig, and of a Mr. John Wightman, who was the agent and also a creditor of the firm of Greig & Bicknell, in San Francisco, and asked that Mr. Greig should be compelled to render an account of his dealings with the estate, and in as much as he had always declined to render any such account to his co-executor, the petitioner, that he should be removed from the management of the estate, and a receiver, if necessary, be appointed in his place, and the petitioner in his affidavit intimated his readiness to accept that office if appointed by the court. The petitioner further alleged various acts of remission and misconduct on the part of Mr. Greig, and of his violence and contempt of the process of the court when ordered to produce the will of the late William Greig for probate.

The Attorney General denied the imputations made in the affidavit against the respondent, who, he stated, in turn charged the petitioner with interfering in the management of the estate, to the entire control of which he had been appointed with the consent of all parties on the death of his father in 1892. He alleged moreover that petitioner had without his consent carried off from the island various cargoes of copra and guano, and had never accounted for the same, and he believed had converted them to his own use, and stated that he himself had intended instituting proceedings on behalf of the beneficiaries to make the petitioner account for what he had done, when this petition was presented against him. He expressed his willingness, if the court could see its way to act upon the present application, to comply with any order the court might make as to filing of his accounts, but asked that the petitioner might also be ordered to bring in his accounts, of the produce he had disposed of, and that he should in the meantime be restrained from any interference in the present management of the estate.

Mr. Garrick having replied, and objected that on the present application the court could not order the petitioner to file his accounts.

His Honor gave judgment to the following effect:—

This petition was presented by Capt. Reid in the double capacity of executor of William Greig of Fanning Island, deceased, and guardian of his infant children, and contained allegations against his co-executor, George Bicknell Greig, who was the eldest son of the deceased and one of the beneficiaries under his will. The object of the petition was to obtain an order from the court for the filing by the executor G. B. Greig, of an account of his dealings with the estate, and also to obtain his removal from the active management of the estate which appeared to have been entrusted to him since he became executor, and for the appointment of a receiver in his stead; and in his affidavit the petitioner offers to accept such appointment. The petition also asked for an order as to the estate papers; and there was the general prayer for such further relief and directions as may be deemed necessary. The petition having been served upon the respondent, the latter has made, in the affidavits he has filed, certain grave allegations against the petitioner, asserting that he has dealt with certain produce taken from Fanning Island forming part of the estate of the

deceased and not accounted for the proceeds; that the deponent as one of the beneficiaries under the will had demanded accounts from the petitioner but without success, and alleging certain acts against him, which, if true, are sufficient to disqualify him from being appointed receiver by the court, and might lead to his removal from the executorship. His Honor said that he was not quite clear whether the strict technical course had been followed in the way this matter had been brought before him, and he was not sure whether if he were sitting in the Supreme Court he would not have had to content himself with simply dismissing the petition for want of proper form. But in the High Commissioners' Court, in which he was then sitting, the procedure was necessarily less technical. But, apart from procedure, His Honor stated he had for some time been doubtful whether any order could be made on this petition which seemed in the nature of a proceeding in which one executor was complaining of the other. The petitioner, however, was before the court not only as executor but also as guardian of certain infant children. The respondent, G. B. Greig, too, was one of the legatees, and he joined in the application for the order to file accounts, making on his own behalf a further application that the order should be not only as against him but should include both executors. There were, therefore, it appeared, parties before this court entitled to invoke its remedial jurisdiction. The petition and its accompanying affidavit on the one hand were equivalent to a statement of claim, and the answering affidavits to a counter claim. This being so, what was the proper order for the court to make? It was quite impossible to comply with the prayer of the petition to give directions as to the management of the estate or to decide whether a receiver should be appointed or not, until the court was in possession of sufficient data as to whether the estate had been hitherto properly managed or not. There had been two executors appointed under the will, and, as usual, in most cases, one executor had undertaken the active management. It appeared that that management had given satisfaction to all but the co-executor, Capt. Reid, and he seemed to have made no complaint until comparatively recently. It might be that Capt. Reid's objections to the management were good, and that when the accounts were filed his desire to have somebody else appointed as manager might be well founded; but it was perfectly clear that before any conclusion could be arrived on that point the accounts must be filed. His Honor said he could make no order as to the management of the estate or the appointment of a receiver until the accounts had been filed; but that it seemed to him the first thing to be done was to order that the accounts of the executor Greig be filed in court, and that in making that order it was necessary that both executors should file their accounts, so as to enable the court to form an opinion as to whose hands it would be safer and better to entrust the management of the estate, if it was to be entrusted to either. He would therefore make an order that both executors do file in the court at Suva, on or before the 1st of March next, an account of their individual dealings with the estate. It seemed to him absolutely necessary in order to enable the executors—Greig at all events—to make up their accounts properly that the books taken away by Capt. Reid from Fanning Island should be returned, and he ordered these books to be lodged in court by 9 o'clock next morning. And in order to prevent costs which would be involved in any fresh proceedings there would be a further order that all parties should be at liberty to apply with proper parties added. The costs of the present proceedings to abide the result of any such application. His Honor intimated further that it would be well if, until the accounts were before the court, Capt. Reid were to refrain from taking away any produce from the islands.

The Attorney General asked if Mr. Garrick would give an undertaking that Capt. Reid would abstain. Mr. Garrick, however, declined to give any such undertaking. The Attorney General thereupon asked for an injunction to restrain Capt. Reid from so interfering. His Honor said he would hear the application at 11 o'clock the next morning, but being informed that Capt. Reid proposed to leave the colony before that time he said he would hear the application at once. Mr. Garrick objected that there was no such application before the court. His Honor said he thought there was; the petition asked for further relief and directions, and application for an injunction had been made by the Attorney General. After some further discussion His Honor then granted an injunction prohibiting Capt. Reid, until the accounts were filed or further order of the court made, from interfering with the management of the estate or taking away any produce or property belonging thereto from Fanning or Washington Islands.

As the petitioner's counsel intimated that it was Capt. Reid's intention to proceed to Fanning Island on business, and as he would give no undertaking to obey the terms of the injunction, His Honor said he should feel it his duty to cause the matter to be brought before the notice of the High Commissioner, with a view possibly of preventing Capt. Reid going to Fanning or Washington Islands at all, for it would clearly be improper for Capt. Reid to remove any produce from these islands, and if he attempted to do so, a serious breach of the peace would probably ensue. Peace and good order must be preserved in the outlying islands of the Pacific. The High Commissioner had the power to interpose the strong arm of the executive in order to prevent any breach of the peace, and the petitioner would do well not to set the order of the court at defiance.

Mr. N. N. Osburn, well known at Woodstock, Mich., was troubled with a lame back. He was persuaded to use Chamberlain's Pain Balm. It gave him relief in one night. This remedy is also famous for its cures of rheumatism. For sale by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

DR. J. COLLIS BROWNE'S CHLORODYNE.

Original and Only Genuine.
COUGHS,
COLDS,
ASTHMA,
BRONCHITIS

Dr. J. Collis Browne's Chlorodyne is a liquid medicine which assuages PAIN of EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. Is the Great Specific for Cholera, Dysentery, Diarrhoea.

The General Board of Health, London, report that it ACTS as a CHARM, one dose generally sufficient.

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhoea."

Dr. J. Collis Browne's Chlorodyne is the TRUE PALLIATIVE in Neuralgia, Gout, Cancer, Toothache, Rheumatism

Dr. J. Collis Browne's Chlorodyne Rapidly cuts short all attacks of Epilepsy, Spasms, Colic, Palpitation, Hysteria

Important Caution.—The Immense Sale of this Remedy has given rise to many Unscrupulous Imitations.

N. B.—Every Bottle of Genuine Chlorodyne bears on the Government Stamp the name of the inventor, Dr. J. Collis Browne. Sold in bottles 1s. 1d., 2s. 6d. and 4s. 6d., by all chemists.

A GOOD THING.

Do you know a good thing when you see it? Some people do and some don't, but those who tumble to it are bound to get ahead in the race for wealth. We can put you onto a thing or two. Just now we want you to

Give Your Horse a Treat.

Remember he is your best friend and if you treat him well and feed him well, he will do more work and better work, besides looking as a noble equine ought to look.

"The National Feed Box"

will work a complete metamorphosis in the condition and the appearance of your horse. It is a circular shaped vessel, made of cold rolled steel, finely galvanized, with malleable iron side rod; each box furnished complete with a Japanese wrought iron holder, plate and screws. This feed box has the advantage that you can put it up anywhere in the stall or box, does not waste a particle of the feed, will always be sweet and clean, and is especially desirable where a horse is inclined to bolting, slobbering or scattering.

It saves feed bills at a rate of from 25 to 30 per cent. Saves doctor's bills by preventing indigestion, colic and stomach troubles, saves hostlers time, trouble and vexation. It pays for itself in a few weeks, and no stable is complete without it. They come in 3 sizes, capacity 6, 8 and 10 quarts, and the price is within the reach of everybody owning a horse. We would especially call the attention of managers of plantations and livery stables to this new device. It will pay you the trouble to come and inspect them.
